Approx. 1.05

DESCRIPTION.

Tribond 1103T has been specially developed as general purpose adhesive for the packaging industry. Tribond 1103T has excellent adhesion to many substrates including Polyethylene, Polypropylene, PVC and Polyester. Tribond 1103T has been formulated with an aggressive tack at low and high temperatures, the high solid content allows the product to dry quickly, improving production cycles. Dry films of Tribond 1103T will remain tacky. Users should evaluate the product to make sure all requirements are satisfied before going in to full production.

STORAGE.

Store at temperature above 7c to prevent damage by frost.
The storage life of this product is 3 months from date of manufacture.

HEALTH AND SAFETY.

None hazardous
Refer to the Material Safety Data Sheet for more information.

CAUTION.

This product has been manufactured to current quality and production specifications. Users of this product must carry out their own trials to ensure all requirements are satisfied. Trillium cannot guarantee the products suitability for the specific purpose of the customer due to the many factors that may affect storage, processing and application.
