DESCRIPTION.

Tricote 1203 is a self cross-linking acrylic coating for paper and boards. When cured the product gives an excellent barrier to water, grease and oils.

Tricote 1203 gives a gloss finish and remains flexible when cured. Coating weight should be determined by the end user, bearing in mind the substrates to be coated.

For best adhesion results the surface energy of the substrate should be a minimum 40d/cm. Users should evaluate the product to make sure all requirements are satisfied before going in to full production.

STORAGE.

Store at temperature above 7°C to prevent damage by frost.
The storage life of this product is 3 months from date of manufacture.

HEALTH AND SAFETY.

None hazardous
Refer to the Material Safety Data Sheet for more information.

CAUTION.

This product has been manufactured to current quality and production specifications. Users of this product must carry out their own trials to ensure all requirements are satisfied. Trillium cannot guarantee the products suitability for the specific purpose of the customer due to the many factors that may affect storage, processing and application.
