DESCRIPTION

Tribond 1228 is a high viscosity copolymer designed for composite can labelling where a good heat resistance and fast grab are required.
Tribond 1228 offers excellent adhesion to a wide range of papers and boards, as well as being suited to bond PE coated materials.
The components of Tribond 1228 conform to one or more of the following;
FDA 21 CFR 175.105, 176.180, 176.170
Users should evaluate the product to make sure all requirements are satisfied before going in to full production.

STORAGE.

Store at temperature above 7°C to prevent damage by frost.
The storage life of this product is 3 months from date of manufacture.

HEALTH AND SAFETY.

None hazardous
Refer to the Material Safety Data Sheet for more information.

CAUTION.

This product has been manufactured to current quality and production specifications. Users of this product must carry out their own trials to ensure all requirements are satisfied. Trillium cannot guarantee the products suitability for the specific purpose of the customer due to the many factors that may affect storage, processing and application.
