DESCRIPTION

Tricote 1031 is a high gloss, none blocking coating for use in paper and filmic packaging. Formulated to give good heat resistance Tricote 1031 has excellent adhesion to a wide range of substrates, including aluminium foil.

Tricote 1031 can also mixed with glitters and pearlescent powders for use in the production of decorative paper coatings.

Tricote 1031 complies with FDA 21 CFR 175.105, 176.170 and 176.180 with some limitations.

*Coat weight required will depend on the type of substrates used and application method.

Users should evaluate the product to make sure all requirements are satisfied before going in to full production.

STORAGE

Store at temperature above 7°C to prevent damage by frost.

The storage life of this product is 3 months from date of manufacture.

HEALTH AND SAFETY

None hazardous

Refer to the Material Safety Data Sheet for more information.

CAUTION

This product has been manufactured to current quality and production specifications. Users of this product must carry out their own trials to ensure all requirements are satisfied. Trillium cannot guarantee the products suitability for the specific purpose of the customer due to the many factors that may affect storage, processing and application.
