DESCRIPTION.

Tribond 1204 is a hard, clay filled adhesive for the packaging industry. Designed for use on simple substrates, Tribond 1204 is designed for use in paper and board laminating, where good tack, setting speed and lay-flat properties are required. These properties allow Tribond 1204 to be used as a paper/board laminating adhesive, a box side-seam adhesive and a tube winding adhesive. Users should evaluate the product to make sure all requirements are satisfied before going in to full production.

STORAGE.

Store at temperature above 7°C to prevent damage by frost.
The storage life of this product is 3 months from date of manufacture.

HEALTH AND SAFETY.

None hazardous
Refer to the Material Safety Data Sheet for more information.

CAUTION.

This product has been manufactured to current quality and production specifications. Users of this product must carry out their own trials to ensure all requirements are satisfied. Trillium cannot guarantee the products suitability for the specific purpose of the customer due to the many factors that may affect storage, processing and application.
